OBJECTIVE

Aspiring AI-ML Engineer with strong foundations in Java, Python, and Data Structures & Algorithms, and a problem-solving, analytical approach to building intelligent, data-driven systems. Seeking to apply hands-on experience in machine learning, natural language processing, and full-stack deployment to contribute to real-world engineering challenges in a collaborative, growth-oriented environment.

EDUCATION

VIT-AP University, Amaravati <i>BTech (AI-ML) 8.44 CGPA</i>	2023–2027
Vidya Mandir College, Karimnagar <i>Intermediate (MPC) 94.3%</i>	2021–2023
Sri Chaitanya High School, Jabhithapur <i>Central Board of Secondary Education (10th Class) 86.6%</i>	2020–2021

TECHNICAL SKILLS

Web & Full-Stack:	HTML, CSS, JavaScript, Flask, FastAPI, REST APIs, Frontend-Backend Integration
AI/ML:	Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Machine Learning, Deep Learning, Prompt Engineering, Model Evaluation
Data & Tools:	NumPy, Pandas, SQL, Git, GitHub, VS Code, Matplotlib
Core Computer Science:	Python, Java, C, C++ (Basics), Data Structures & Algorithms (DSA), Database Management Systems (DBMS), Operating Systems (OS), Object-Oriented Programming (OOP), Software Engineering, Agile/Scrum

PROJECTS

Music Recommendation System <i>Streamlit, Machine Learning</i>	<u>Live Demo</u>
Developed an AI-powered music recommendation system using machine learning algorithms to suggest personalized music based on user preferences and listening history.	
Image Classifier with Transfer Learning <i>PyTorch, CNN, FastAPI</i>	<u>Live Demo</u>
- Trained a CNN using transfer learning (EfficientNetB0) achieving high accuracy on an image classification task, applying data augmentation and evaluation via precision/recall/confusion matrix. - Deployed the model as a REST API using FastAPI, enabling real-time inference.	
RAG-based Document Q&A Chatbot <i>FastAPI, ChromaDB, LLMs</i>	<u>Live Demo</u>
- Built a Retrieval-Augmented Generation chatbot using FastAPI, ChromaDB, and Sentence-Transformer embeddings that answers natural-language questions over PDF documents with page-level source citations. - Implemented per-session document isolation and auto-indexing on upload, and deployed the application as a live REST API.	
Portfolio <i>Web Development</i>	<u>Live Demo</u>
Created a personal website to cleanly display projects, skills, and academic achievements.	

CERTIFICATIONS

- Successfully completed the project titled "**TransLingua: AI-Powered Multi-Language Translator**" – Approved by **TEAM SMARTBRIDGE**.
- AWS Academy – Cloud Foundations (Training Badge).
- AWS Academy – Cloud Architecting (Training Badge).
